Location:

Room 3102

Sheldon M. Chumir Centre

1213 4 St SW, Calgary, AB T2R 0X7

If you are interested or want more information about the joining the focus group, please contact:

KarenJ.Landriault@ahs.ca

The Emergency Strategic Clinical Network™ (ESCN) is working on a project that involves the creation of a patient decision aid for patients with Iron Deficiency Anemia. Iron Deficiency Anemia (IDA) is a lack of iron in your body leading to an inability to produce hemoglobin, which carries oxygen to the rest of your body. The goal of the handout is to help improve the management of patients receiving red blood cell transfusions.

Regardless of whether you suffer from IDA or not, your input and feedback are extremely valuable to us! We would like your feedback on the language we use, color choices, and whether the content is useful.

Refreshments will be provided and travel expenses and parking will be covered.
